

POLYCOATED PAPER CONTAINERS

PREPARATION GUIDE:

Drink Boxes - Examples include the small boxes popular with children, and larger, one liter rectangular boxes used for milk.

Gable Top Cartons - Includes milk and juice cartons (again, all sizes), and some dry goods (e.g., Pepperidge Farm crackers and malted balls). Cartons with plastic lids and aluminum linings are acceptable.

Do Include:

- Gable Top Cartons, such as

Milk Cartons
Juice Cartons (Including those with plastic spouts; remove lids)

- Drink boxes (including larger sizes commonly used for milks)

Do Not Include:

- Straws
- Frozen Food Containers
- Waxed Paper

Instructions:

1. Rinse and empty
2. Flatten
3. Place in recycling container with glass, cans and plastic.

Ketchup Bottles

Wine and
Liquor Bottles

Food Containers

PLASTICS

Only plastic soda bottles, milk jugs, water jugs and laundry products labeled #1 or #2 are acceptable. Other plastic containers such as bowls and plates are not acceptable. Be sure to remove lids and rinse out container. Labels can remain.

Soda Bottles (PETE)

Water Jugs &
Milk Jugs (HDPE)

Shampoo Bottles
(HDPE)

Detergent Bottles
(HDPE)

Other Bottles and Jugs Labeled:

PETE

HDPE

ALUMINUM AND BIMETAL CANS

All food and beverage cans are recyclable. Rinse out cans before placing them in your recycling container. Labels can remain.

Aluminum Cans

Tin Cans

Bimetal Cans
(Aluminum & Tin)

REMEMBER

All jars and bottles, metals cans, plastic bottles and jugs should be rinsed clean and placed commingled in your recycling container.

Glass bottles and jars should not be broken before being placed in container.

Newspapers (with colored inserts) and magazines should be tied in separate bundles when placed for collection.

Do not line container with plastic bag.

To save space, you may crush all plastic and polycoated containers.
